338 N Cascade st  
Buckley, WA 98321

I am a dedicated, hardworking person, ready to take on any new, or difficult task. I am currently looking for a stable long-term occupation. Please review my resume and website details below, and feel free to contact me using my email address, phone number, or list my website provided to further discuss my employment with your company.

## Experience

### **Software Specialist Seattle-Tacoma Box Co., January 2021 - present**

Responsibilities include: Maintain SQL database, create custom reports, build custom C++/swift apps for company use, maintaining company phones and WiFi modules. I am making a customer portal app that will allow customers to order product through an app or web portal, instead of relying on email or phone calls to place orders.

### **Customer Service Representative/Buyer, Seattle-Tacoma Box Co., August 2015 - 2021**

Responsibilities include: resolving product or service problems by listening to the customer's concerns and finding a solution, taking customer orders, and inputting orders into the system, maintaining customer accounts, and restocking the warehouse with merchandise. I am also an acting safety team member.

### **Personal Admin, United State Marine Corp, August 2012 - August 2018**

Responsibilities Included: Working with CLC2S: an Oracle data base system that manages the transferring, locating and tracking of supply shipments to over 250 Marines and Sailors. Entering confidential information into a database, storing and filing information and/or documents, managing fellow Marine's payroll, to be sure that work time, and information is being recorded correctly, set up 401k plans to best fit my fellow Marine's needs, lift and organize heavy equipment. I was also the acting Squad Leader and my responsibilities consisted of, delegating Marines for certain tasks to complete a bigger picture goal, along with tending to their mental and physical needs to make sure they are safe and on assignment.

### **Window Carpenter, Milgard Windows and Doors, March 2014 - July 2015**

Responsibilities Included: Measuring, cutting, and preparing wood for window frames, maintaining a clean, and efficient work station, stocking and organizing the wood storage, cleaning window glass for a polished final product, and Practicing quality control by assuring every window made, is the same great quality
